

We are looking for members from SABR's Casey Stengel chapter who would like to be a part of the Ron Gabriel Award Committee. This committee helps bring SABR members together and is a lot of fun. From Wilbert Robinson to Walter Alston; from Zack Wheat, Casey Stengel to Jackie Robinson, we have a lot of fun in reading articles, books, research papers, or reviewing oral presentations, websites, and databases pertaining to the Brooklyn Dodgers.

From 2012 through 2022, SABR's Ron Gabriel Award Committee honored authors of the best research, Published or unpublished, on the subject of the Brooklyn Dodgers, completed during the previous calendar year.

After 2022, the Ron Gabriel Award Committee was discontinued. However, this year the SABR board is opened to bringing back the Award Committee at a chapter level. It is believed that the Casey Stengel chapter is a perfect fit for this award, assuming we can generate enough interest and get enough volunteers to serve on the committee.

Eligible works for the award include but are not limited to magazine and journal articles, unpublished research papers, written versions of oral presentations, books, databases and websites.

If interested in being a part of this and serving as a committee member, please contact me at Runtowin89@hotmail.com

Sincerely,

Gary Sarnoff
